

QUALITY POLICY STATEMENT

Integration Technology Ltd is a manufacturer that specialises in the production and supply of novel curing solutions for emerging markets around the world.

Our quality management system is based on the requirements of BS EN ISO 9001:2015 and as a company we are fully committed to fulfilling these requirements.

All activities undertaken are planned, controlled and executed to ensure customer requirements are identified and met at each stage in the process.

We will meet our obligations to statutory and regulatory requirements. We will drive continual improvement based upon reliable business processes and best practices, considering organisation context, interested parties needs and expectations and risks and opportunities.

Our Quality Management System ensures a systematic approach to procedures and processes by all employees. Senior Management have assigned responsibility throughout the organisation for implementing and maintaining the Quality System procedures and processes, which are continually reviewed and improved. Senior Management will provide appropriate resources as required in order to meet our Quality Objectives.

All employees are made aware of the aims and objectives of the Quality Management System and relevant operating procedures and are expected to adhere to their requirements. All employees are encouraged to suggest improvements to the Quality System.

We communicate our Quality Policy to all employees through notice boards, staff induction and training. It is available to all relevant interested parties on request.

Craig Wenlock

Chief Operating Officer
